

The Spirit of Giving

What? Let's help teach the gift of giving. Based on the sustainability concept of REDUCE, REUSE, RECYCLE, we'd like to collect and sell gently used toys from within our school community. This pre-Christmas initiative will allow students the opportunity to *give, think of others* and gift *shop*!! BRING IN YOUR ITEMS!

Who? St. James families and students

When? Collection would take place the week of November 29th. The sale would take place Monday December 6th and Tuesday December 7th.

What? Selling gently used, in good condition toys/games/books/stuffies/ things kids play with. Items will be sold for 1\$, 2\$, 5\$, 10\$ depending.

Where? Bring your reusable items from home into the school and place them in the collection bag provided for your classroom.

Why? Reduce, reuse, recycle learning and to create affordable gift giving and buying.

Collection bags will be in classrooms. **Thank you for thinking of others, helping our environment by reusing items, gift giving and bringing smiles, joy, excitement to our students!!**

Money raised would be divided between all the classes for the classroom teacher to deliver a Christmas celebration of their choosing.
